SECTION B—VOL. LXVIII

No. 1—July 1968

Studies on Palms: Embryology of *Phoenix robusta* Hook. . . . . . N. V. Biradar and T. S. Mahabale 1

Studies on Sclerotium Rot of Mints . . . . . V. R. Pandotra and K. S. M. Sastry 9

Studies in the Proteaceae. XI. Morphology, Floral Anatomy and Embryology of *Lambertia* Sm. with a Discussion on the Taxonomic Position of the Genus . . . . . C. Venkata Rao 11

Morphology of the Edible Fern *Ampelopteris* Kunze . . . . . Prakash Chandra and B. K. Nayar 25

Trace Element Studies on Some Pathogenic Fungi . . . . . K. S. Thind and C. L. Mandahar 37

On the Synonymy of the Genus *Artyfechinostomum* Lane, 1915 (Trematoda: Echinostomatidae) . . . . . R. P. Mukherjee and R. K. Ghosh 52

No. 2—August 1968

Brachiopod Larvae from the West Coast of India . . . . D. Sudarsan 59

Some Observations on the Conditioned Responses in the Fingerlings of the Milk Fish *Chanos chanos* (Forskål) . . . . . V. S. Durve 69

Anatomy of the Feeding Apparatus of Hoopoe—*Upupa epops epops* Linnaeus . . . . . U. M. Rawal 79

Some New Records of Parasites of Rice Stem-Borers in India . . . . . V. P. Rao, A. N. Basu, V. R. Phalak, M. J. Chacko and H. Dinesh Rao 91

No. 3—September 1968

Utilization of Various Forms of Nitrogen by *Drechslera sorokiniana*, the Pathogen Causing Foot Rot Disease in Wheat . . . . . C. V. Subramanian and P. D. Tyagi 111

PAGE

No. 3—September 1968—*Contd.*

Studies in Mutagenesis in Sugarcane. I. Effects of Chemical Mutagens . . . . . N. Hrishi and S. Marimuthammal 131

The Chromosome Complement of the Bonnet Monkey (*Macaca radiata*) Determined in Leucocytes . . . . . Hafeezur Rahaman and M. D. Parthasarathy 143

Effect of a Varietal Mixture on Sugarcane Root Rot Susceptibility and on the Rhizosphere Microflora . . . . . K. V. Srinivasan 150

Utilization of Carbon Compounds by *Fusarium solani* F. *aurantifoliae* Bhat. and Prasad . . . . . G. C. Bhatnagar and N. Prasad 163

No. 4—October 1968

Effect of Micro-Nutrients on the Growth and Sporulation of *Fusarium solani* F. *Aurantifoliae* Bhat. and Prasad . G. C. Bhatnagar and N. Prasad 169

Some Interesting Fungi. III. On *Typha* . . . . . K. M. Ponnappa 175

Studies in Mutagenesis in Sugarcane. II. Induction of Visible and Micro-mutations in Sugarcane by Chemical Mutagens . . . . . N. Hrishi, T. N. Krishnamurthy and S. Marimuthammal 181

Studies on Heterosis in Pearl Millet (*Pennisetum typhoides* Stapf and Hubb.). III. Genetic Analysis of Characters of Peduncle and Primary Ear . . . . . M. Mahadevappa 190

Drosophila rajasekari—A New Species from Mysore (India) . . . . . G. Sreerama Reddy and N. B. Krishna Murthy 202

Phaeodactylium venkatesanum Gen. *et* Sp. Nov. on *Elettaria cardamomum* Mat. from Kerala . . . . . V. Agnihothrudu 206

Studies on Heterosis in Pearl Millet (*Pennisetum typhoides* Stapf & Hubb.). IV. Genetic Analysis of Plant Height, Tillering, Yield of Straw and Yield of Grain . . . . . M. Mahadevappa 210

No. 5—November 1968

Chromosome Numbers in Certain Indian Species of *Utricularia* L. (Lentibulariaceae) . . . . . K. Subramanyam and N. P. Kamble 221

Initial Adaptive Responses to Thermal Stress in Freshwater Teleosts. I. Oxygen Consumption of Whole Animal . . . V. Parvatheswararao 225

PAGE

No. 5—November 1968—*Contd.*

Radiochemical Basis of Sensitisation of *Staphylococcus aureus* by Vitamin K_5 . . . . . M. A. Shenoy, V. T. Srinivasan and B. B. Singh 232

Studies in the Floral Morphology of the Marantaceae—II. Vascular Anatomy of the Flower in Two Species of the Genus *Phrynium* Willd. . . . . V. D. Tilak and R. M. Pai 240

Further Contribution to the Anatomy of the Marantaceae: *Schumannianthus virgatus* (Roxb.) Rolfe . . . . . E. Govindarajalu 250

Toxicity of *Aspergillus flavus* ex Link Fries and *Penicillium rubrum* Stoll to Swiss Albino Mice . . . . . Miss K. Madhavikutti and E. R. B. Shanmugasundaram 261

No. 6—December 1968

Utilization and Synthesis of Oligosaccharides by Some Pathogenic Isolates of *Colletotrichum capsici* (Syd.) Butler and Bisby . . . . . Bihari Lal and R. N. Tandon 269

Further Studies in Polysomaty in Root-Tips of *Cicer arietinum*, Linn. . . . . B. A. Phadnis, M. N. Narkhede and M. V. Thombre 279

Vascular Connections of Axillary Buds in Some Members of the Verbenaceae and the Labiatae . . . . . J. J. Shah and K. Unnikrishnan 284

Studies on the Exocrine Pancreatic Tissue of Three Teleosts . . . . . S. M. Kamal Pasha 289

Studies on Pigeon Pea Sterility Mosaic Disease. VI. Effect of Disease on Carbohydrate . . . . K. K. N. Nambiar and K. Ramakrishnan 295

An Interesting New Species of *Phyllagathis* Bl. (Melastomataceae) . . . . . M. P. Nayar 301

Blister-like Malformations on Tea Seedlings . . . . . C. S. Venkata Ram and K. S. Venkataramani 304

Embryo Culture of Maize and Sugarcane Hybrids . . . . . N. Hrishi and S. Marimuthammal 308

Influence of Androgens on Urinary Excretion of 17 Hydroxy Steroids and Amino Acids in Male Rats . . . . . P. A. Tipnis and T. H. Rindani 314
